Policy statement on Water Conservation

Introduction

Water is a vital resource essential for life, agriculture, industry, and ecosystem sustainability. Recognizing the critical importance of water conservation in ensuring future generations' access to clean and sufficient water resources, Indira Gandhi Kala Mahavidyalaya, Ralegaon, hereby establishes this policy on water conservation. This policy aims to outline proactive measures to manage and preserve water resources effectively, addressing both current and future demands while promoting environmental stewardship and sustainability.

Objectives

1. To Promote Awareness and Education: Increase public and stakeholder awareness about the importance of water conservation and efficient water use practices through outreach campaigns, educational programs, and community engagement.
2. To Implement Efficient Water Use Practices: Encourage the adoption of water-efficient technologies, practices to minimize water wastage and optimize water use efficiency.
3. To Develop and implement comprehensive water management strategies, including monitoring, assessment, and planning, to ensure sustainable water supply and demand balance in accordance with regional and local needs.

Scope:

This policy applies to all components and stakeholders of Indira Gandhi Kala Mahavidyalaya, Ralegaon. It encompasses efforts to conserve water resources through regulatory measures, incentives, public outreach, infrastructure investments, and collaborative partnerships. The scope includes but is not limited to:

- Water use efficiency standards and guidelines
- Research and development initiatives
- Educational programs and outreach campaigns
- Monitoring and reporting requirements

By implementing this policy, Indira Gandhi Kala Mahavidyalaya, Ralegaon commits to fostering a sustainable water future, ensuring resilience to water-related challenges, and preserving this vital resource for present and future generations.

Measures for energy conservation

- Bore well Recharge
- Rainwater harvesting
- Waste water for gardening
- Dripping irrigation to all plants
